## **COMMITTEE OF THE WHOLE STUDY SESSION:**

### **Access to Adult Services for Developmental Disabilities—State Support:**

Ms. Darlene Kloeppe, Ms. Babette Leek and Mr. Michael Granse spoke regarding Independent Service Coordination at the Champaign County Regional Planning Commission (RPC). The service provides life-long advocacy and service access to persons with developmental disabilities. Individual service coordination is a social service that enables people with developmental disabilities and their families to find, use and coordinate resources and opportunities in their communities on the basis of individual needs, wants and desires.

Pre-Admission Screening (PAS) is the process of determining the eligibility of services for individuals through the Division of Developmental Disabilities. Individuals must qualify for federal Medicaid funding in order to receive state support.

Prioritization of Urgency of Need for Services (PUNS) is a cross disabilities database implemented by the Department of Human Services (DHS) in an effort to plan and prioritize needs of individuals with disabilities. PUNS is used to determine the urgency of need. Based on the PUNS data a person is placed in one of three groups: emergency need, critical need, or planning for need.

Committee of the Whole (COW) members engaged in dialogue and a question and answer period following the presentation.

## **BOARD ANNOUNCEMENTS:**
