Intergovernmental Agreement

WHEREAS, Champaign County and the Village of Gifford wish to enter into an agreement outlining the responsibilities of each entity in the Jurisdictional Transfer of County Highway 32 (Main Street) in Gifford, Illinois; and

WHEREAS, It is agreed that the Village of Gifford will accept a jurisdictional transfer of County Highway 32 (Main Street) and that such transfer will remain in effect until final completion of Contract #91453; and

WHEREAS, during the time that the Village of Gifford has jurisdiction of this roadway the County Highway Department will continue their winter snow and ice control on this section of road; and

WHEREAS, it is agreed that Champaign County will accept back a jurisdictional transfer of the above stated section of roadway after final completion of Contract #91453; and

WHEREAS, the Village and County agree that the Village of Gifford will have two options to upgrade Main Street in Gifford after the County has accepted the jurisdictional transfer back from the Village of Gifford and those two options are shown below; and

Option 1

MFT Fund Use

The County would overlay this section of road using County MFT funds. If the overlay in town went forward with MFT funds the angle parking would require a variance but only from the State and not Federal. With MFT funds the County can only pay for the center 23 foot driving lanes under their jurisdiction and not the parking area. The Village can use their MFT funds to pay for resurfacing of the parking lanes. MFT funds can be used for storm water improvements on the right-of-way.

Option 2

Federal Fund Use

The County would overlay this section of road using federal funds. With Federal funding the project would require the parking in the down town area be changed to parallel. This would result in a loss of at least 50% of the existing parking. The loss of parking will require public meetings and public input. Federal funding can be used to provide for new off street parking

including land acquisition if it is shown that the parking that would be lost is needed. The Federal funding can also be used for drainage improvements if they are necessary to accommodate roadway drainage. This includes providing an outfall for the storm water. Upsizing storm sewers, additional pipe and inlets off the County Highway thru the outlet would not be eligible for federal funding.

WHEREAS, The Village of Gifford shall choose one of the above options and upon notification from the Village of their choice the County will take the steps necessary to program the project as soon as practical when funds become available.

Now, Therefore the Village and County agree to enter into this Intergovernmental Agreement, approve the Jurisdictional Transfer Agreements, and pass appropriate resolutions deleting and adding County Highway 32 to their highway systems, all of which are attached and shall be a part of this Agreement.

IN WITNESS WHEREOF, The parties have executed this Agreement.
